### Tan Activating Bronzers:

Revolutionary blend of Melanin Activating Boosters to provide your own natural darkest bronze colour.

### Delayed Bronzers:

Extra delayed bronze colour that is fully noticeable 8 - 24 hours and lasts 4-7 days. Wash hands after use.

### Immediate Bronzers:

Extra immediate bronze colour that lasts 1-2 days. Wipe hands after use.

### Body Blush®:

Immediate photo-reactive blushed glow.

### Hemp:

natural oil extract rich in enzymes that softens and conditions skin to increase UV light absorption for maximum tanning.

### Coolant:

a cooling sensation during and after tanning session.

### Tingle:

warming on the skin with slight redness, ability to see colour working. Immediately. Test small area before application.
